ORTHO C.E.

Online and in-person empowerment.

Since our founding, we've helped veterinarians build their skills through quality hands-on continuing education experiences. And because we always gather feedback, we continually refine our offerings to ensure you're getting exactly what you need when you trust us with your time. Whether in one of our hands-on wet labs or through an online course, our dynamic faculty will share practical insights to help expand your surgical knowledge.

SPECIALISTS

The people behind the promise.

Our Technical Product Specialists work on the front lines of customer care, providing in-depth technical support on all of our products. Whether assisting in the selection of the proper implants or instruments, or helping you prepare for upcoming surgeries, they provide practical advice and exceptional customer service, ensuring you have everything you need to provide the best possible care.

ORTHOHELP

Here when you need us.
We are OrthoHelp.

We design our products to make common orthopedic procedures simpler and more effective. But when you have questions, you are not alone. Our OrthoHelp team is available to handle questions regarding specific pre- or post-surgical cases. We will review all information, including radiographs from the surgeon, to make our best surgical recommendations. Let us consult on topics including case assessments, techniques, pre-surgery implant consults, dealing with broken implants such as plates and screws,
